## AMNESTY PROGRAM Sump Pump

It is illegal to have your sump pump, floor drain or down spout hooked up to the public sanitary sewer system. Each year millions of gallons of storm water improperly drain into Caln Township's public sanitary sewer system. This contributes to high treatment costs to the Township and its residents, and overloads the sanitary sewer system.

In order to help address the problem, the Caln Township Municipal Authority will offer a final Amnesty Program to those residents who have illegally connected floor drains, down spouts, and sump pumps. During the amnesty period, the Authority will assist residents in indemnifying and correcting these illegal connections, without penalty.

The Amnesty Program period will last until May 31, 2019. During this period, property owners are asked to inspect their own plumbing, in order to identify illegal hookups and to remove any illegal connection. Owners who do not have the expertise to determine if their sump pumps, floor drains, and down spouts are illegally connected should call the Township at 610-384-0600 ext. 139 for assistance. It is important that any property owner that identifies that they have an illegal connection call 610-384-0600 x 139 to schedule an initial inspection to verify the connection, and to implement its disconnection.
