Average Response:	

Notes

- Rescue 38 returned from its repairs. Thank you to the group of volunteers that spent a Friday afternoon and late into the evening cleaning and loading equipment back on it, so it could be placed back into service.
- Fire Company was awarded \$24,110 from the COVID-19 Fire, Rescue, and EMS Grant received from the State Fire Commissioner's Office. This grant was funded through funds received by the state from the CARES Act. This will go towards supplementing operational expenses incurred by the lack of opportunities for fundraising because of COVID-19.
